

# PL612 technical report

PL612 – Bałdy / Poland

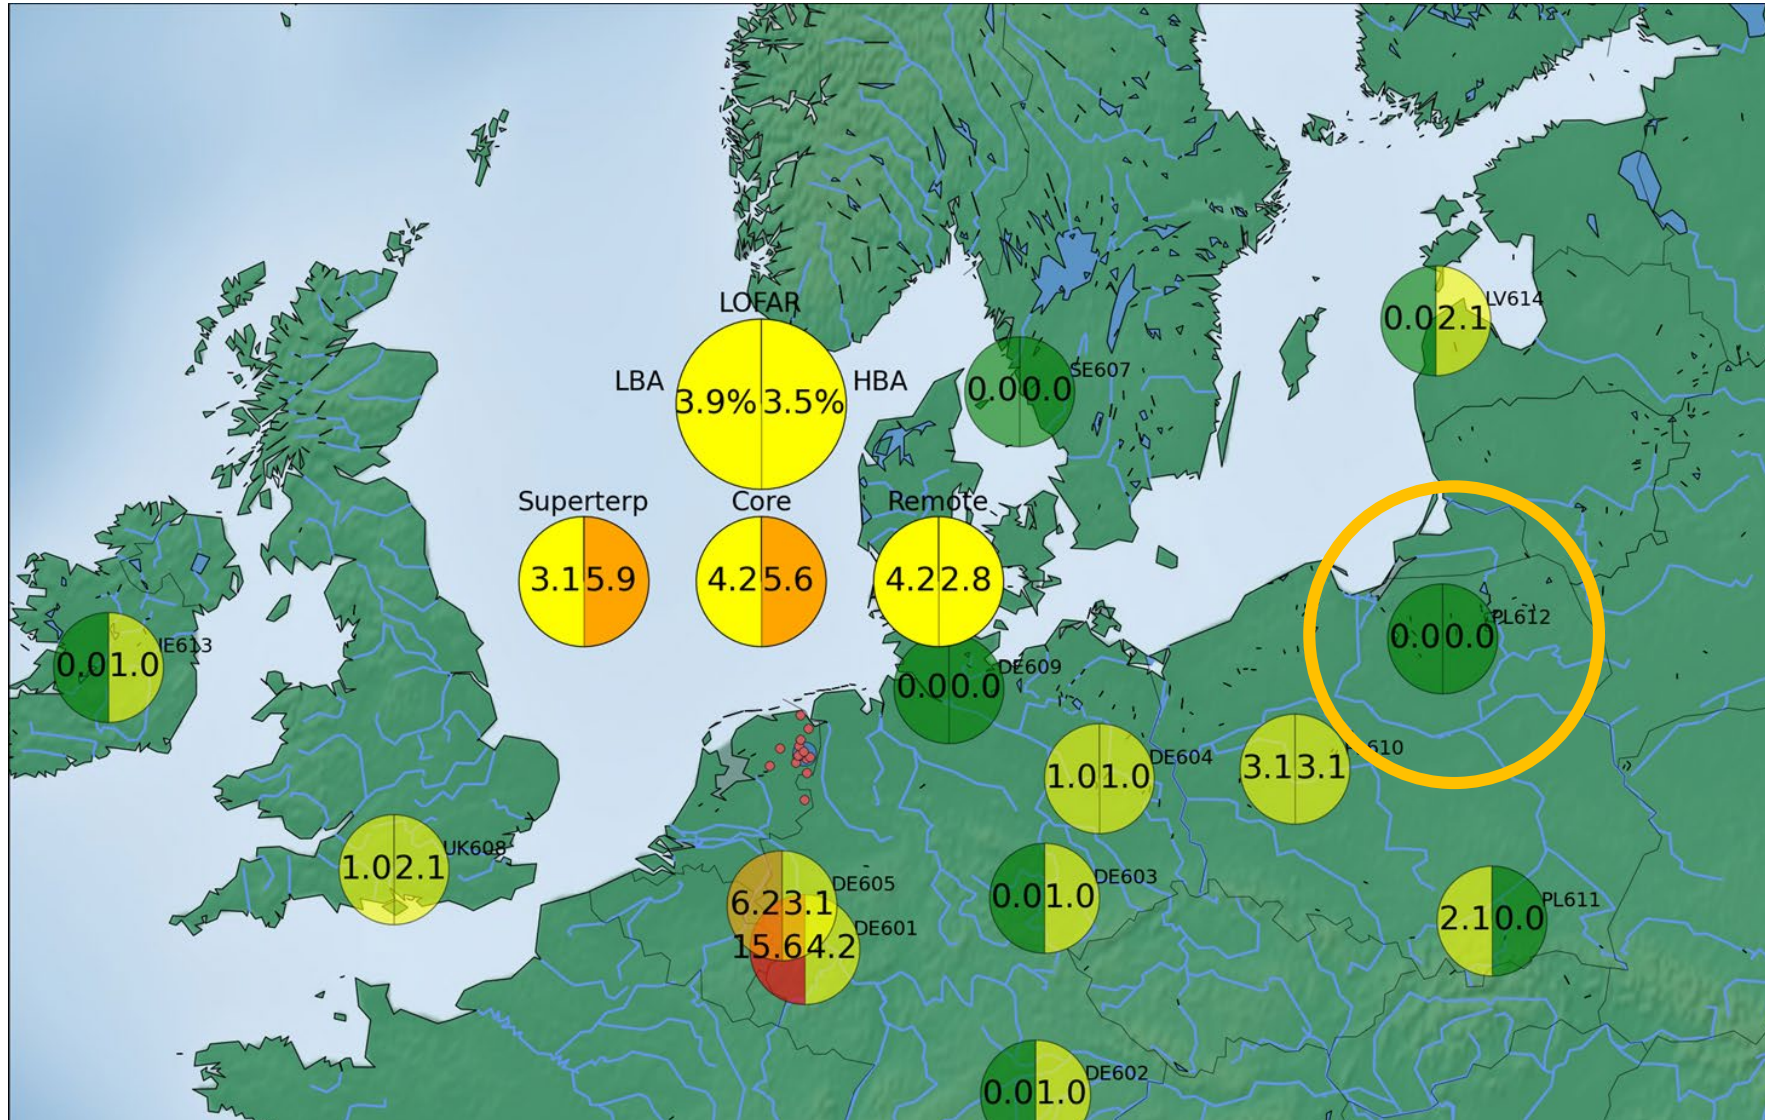

Leszek Błaszkiwicz & PL612 Team

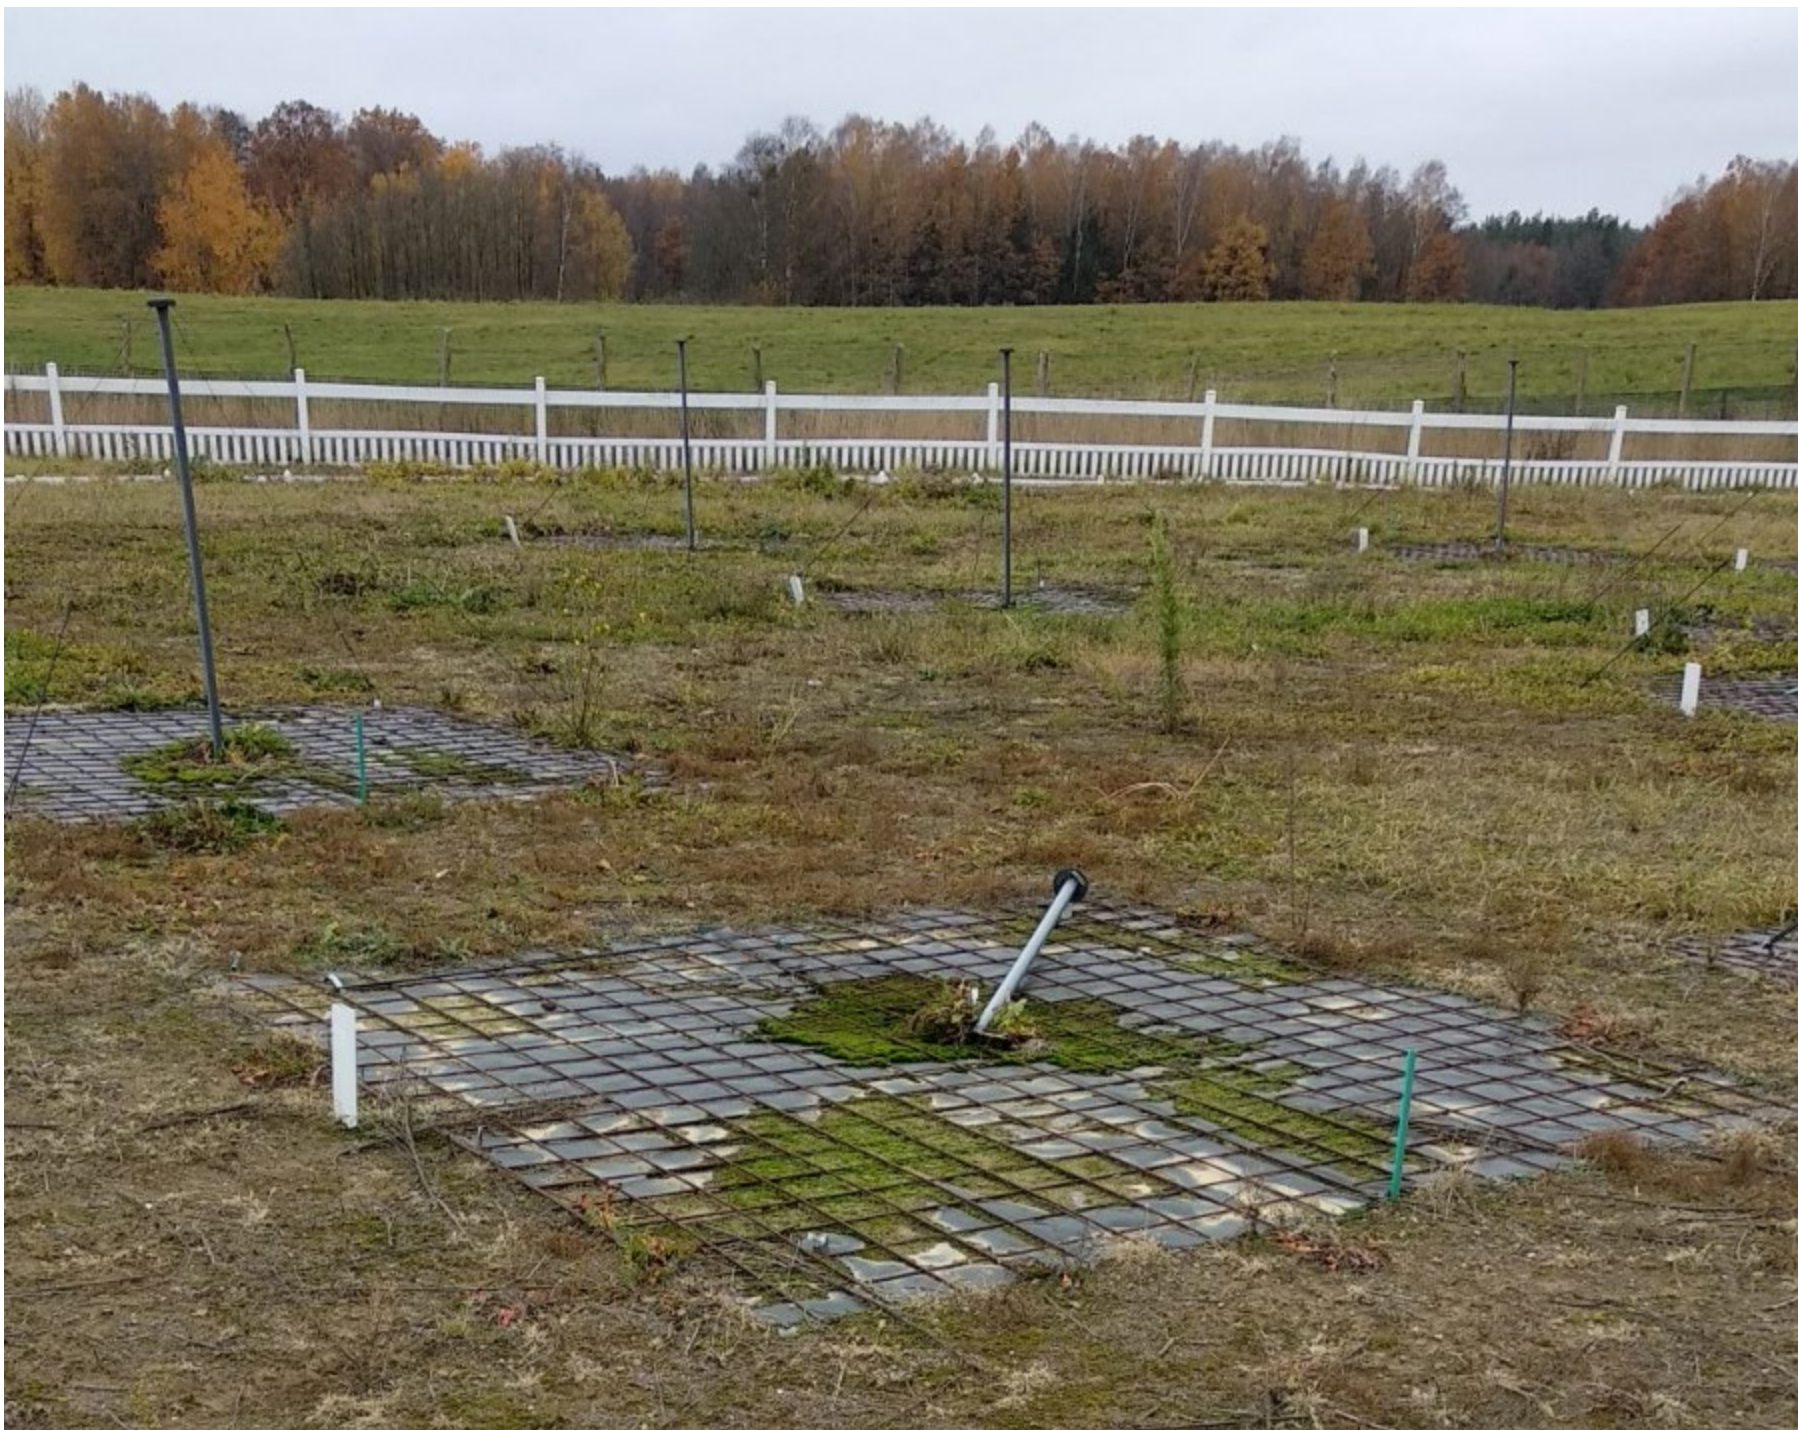

University of Warmia and Mazury in Olsztyn

Since the previous ILT TO meeting the PL612 station has worked rather well and smoothly.

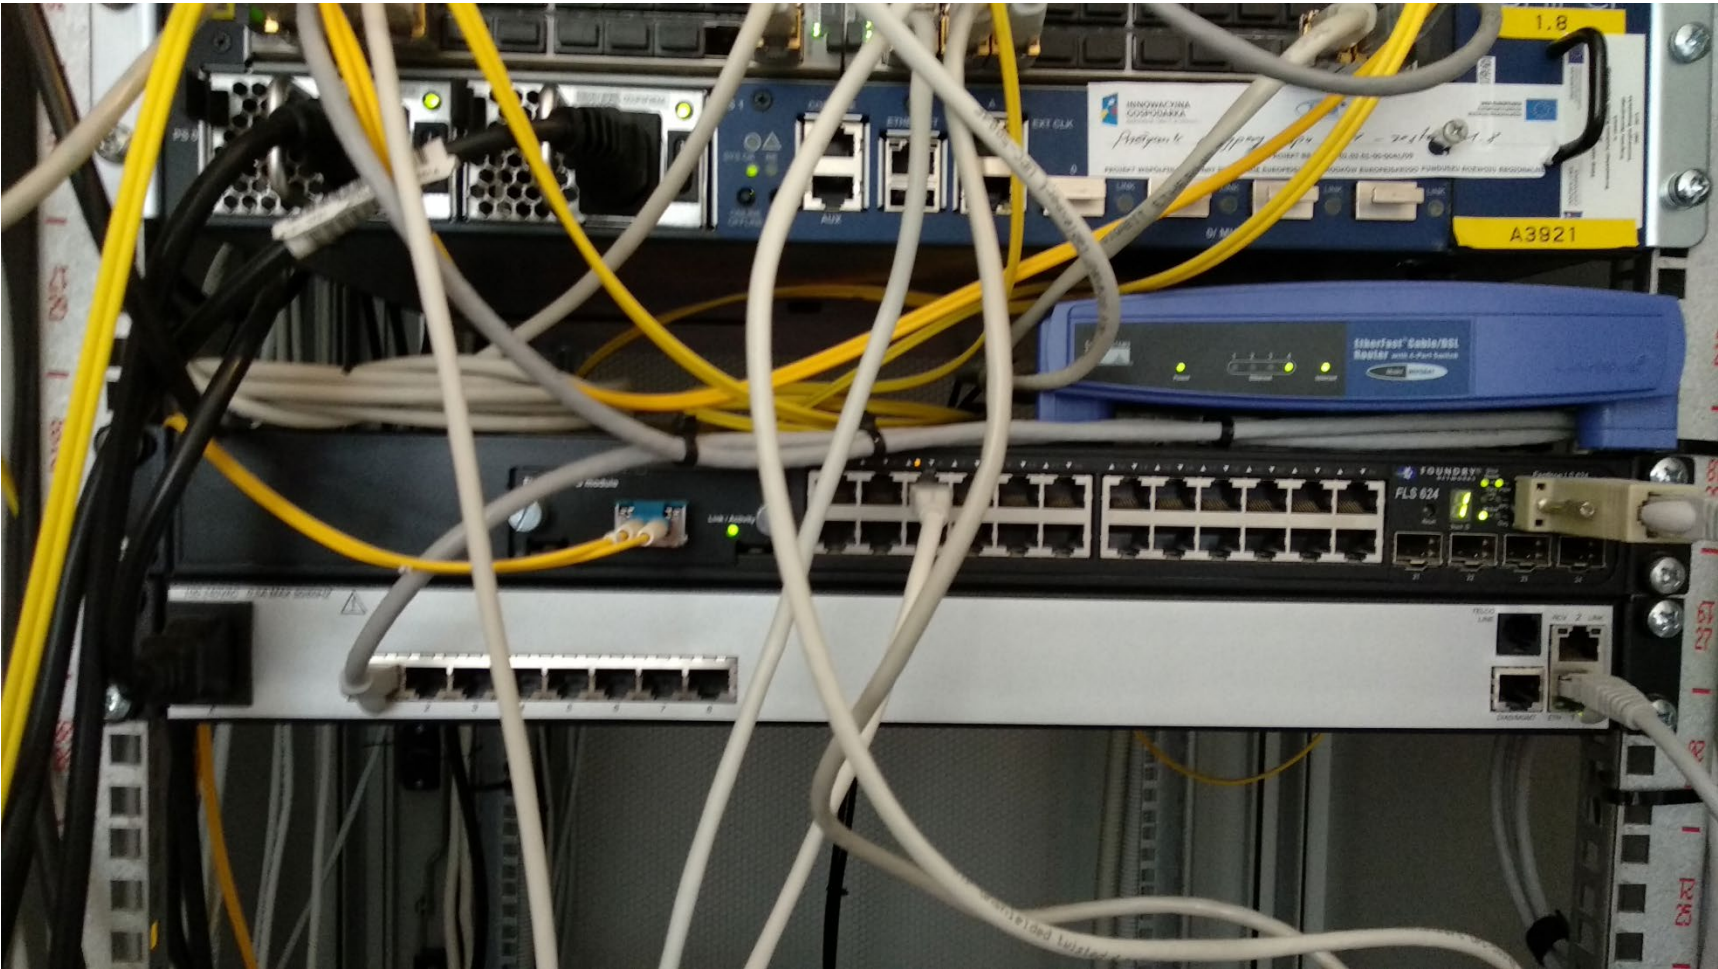

We only had a few technical problems

# During the last LOFAR status meeting (October 23rd 2019):

# The S1 switch Replacement (July 2019)

# Some small power control problems (Oct 2019)

- EC controller fail

# Trouble with rubber (small)

- Animals?
- Weather – wind?

# Too good climatic conditions ☺
