ILTO meeting March 23, 2010 (ILT Technical Operations)

The ILT Technical Operations meeting is held at the start of a LOFAR observing semester. The purpose of the meeting is to discuss operations procedures for the ILT, covering all aspects from observation scheduling to station maintenance. The audience for this meeting are (technical) personnel involved in running and maintaining the station.

The first meeting was held on March 23, 2010, at ASTRON in Dwingeloo. At this meeting, roll-out issues were discussed as well, as several international stations were either under construction or to be constructed.
